REAP THE BENEFITS

IDEA has invested millions over the past two years to develop a next-generation digital product experience platform. IDEA engineered IDEA Connector to support industry data standards, facilitate rapid information exchange between trading partners and increase digital sales in the electrical channel. With this significant investment, we added new services to serve our customers better.

EXTEND YOUR STAFF RESOURCES

IDEA can add more bandwidth to your team. Our experienced staff can handle your projects— simple or complex—to save you time and money.

INNOVATE WITH AGILITY

Work with a partner who has already “been there, done that.” We’ve developed the next-generation digital product platform. We are ready to help customers solve their most complex business challenges.

TAP INTO DEEP INDUSTRY EXPERTISE

Access IDEA’s experienced technology solutions team to overcome your electrical industry challenges and give your products more exposure through eCommerce.

COMPREHENSIVE SERVICE CAPABILITIES

Maximize your investment and stay ahead in today’s competitive market. We offer a wide range of comprehensive services that align with the IDEA Connector.
