☑ IDEA is owned by the electrical industry and is the #1 EDI provider

ONLINE DOCUMENT TRACKER

View the status of all your documents to see if they were successfully sent and received.

IN-NETWORK TRANSLATION

Send documents in one format, enable receipt in another. Formats could include: EDI, EDIFACT, Flat Files, XML, binary, and graphic files.

FLEXIBLE DOCUMENT VIEWING

View your documents in both the format you sent them, and in the format they were received.

COMMUNICATION WITH NON-EDI COMPANIES

Send and receive documents seamlessly to and from companies that aren't EDI capable with web forms and flat files.

CUSTOMER TESTIMONIAL:

❝ The implementation of the product has gone seamlessly, and the team has gone above and beyond to meet Glasfloss needs, as well as our customers. Our customers have been very satisfied with transitioning from manually processing purchase orders, acknowledgments and invoices to a fully automated approach. Due to the reduced number of errors and increased efficiency in order processing, we have persuaded more customers to consider transmitting all documents via EDI. IDEA has become a great partner for Glasfloss, we have seen a measurable ROI in business processes improvements in only a few months. Glasfloss is running more streamline and lean in several departments due to our partnership with IDEA. ❞

- Juby Alexander, Information Technology Manager

UNRIVALED SECURITY

IDEA Exchange has multiple layers of security including: firewalls, encryption, certificates, authentication, and validation, with a fully redundant network and disaster recovery.

DOCUMENT REPROCESSING

Regenerate EDI documents with point and click ease. Never spend time or resources recreating EDI documents again.
